MENLO PARK RECORDER

A PAPER DEVOTED TO THE BEST INTERESTS OF MENLO PARK AND SAN MATEO COUNTY

VOLUME 12 — MENLO PARK, SAN MATEO COUNTY, CALIFORNIA, FRIDAY, MARCH 1, 1935 — No. 20

Firemen's Dance Big Social Success

The following communication from the Matt Harris Club, Menlo Park Firemen's organization gives a good account of the success and excellent time enjoyed by all who were fortunate enough to be able to attend the big dance given by that club last Saturday evening in the gymnasium at the Menlo Junior College:

Mr. L. E. Harris, Editor,
Menlo Park Recorder,
Menlo Park Calif.

Dear Mr. Harris:—It is gratifying indeed to inform you that the Firemen's dance given by the Matt Harris Club of the Menlo Park Fire District was a success financially and every one who attended had a fine time.

The money derived from this affair will be used to equip the drill tower recently built by members of the fire department and to make other improvements so as our firemen will be better fitted to perform the duties they may be called upon to perform.

The success of this dance was due to a great extent to the fine support given it by the Menlo Park Recorder, and the dance committee wishes to take this opportunity to thank the Menlo Park Recorder and its Editor.

We also wish to thank all those who supported our endeavor and especially the business places of Menlo Park who showed a fine spirit in purchasing tickets.

We also wish to thank Chief Farrell and the members of the Atherton Police department who so efficiently handled the traffic and the crowd.

The officials of the Menlo Junior College know that their support in the granting us the use of their gym was appreciated, and all others who played a part in the success of our dance, are in reality just making a better fire department, to protect the lives and property of our community.

All support of this affair is appreciated and we extend thanks to all.

THE DANCE COMMITTEE,
MATT HARRIS CLUB.
Menlo Park Fire District.

BENJAMIN B. ROGERS PASSES AWAY MONDAY

Benjamin B. Rodgers, 60, a resident of Redwood City for more than thirty years, and well known in this city, passed away at the Community Hospital at Beresford on Monday afternoon.

Born and raised in La Honda, Rodgers was a rancher there and former manager of the Blair estate at Atherton. He resided on Stockridge avenue, Redwood City.

He is surivved by his wife, Mrs. Marion Rodgers; his sister, Mrs. Ceres Bilisback; his daughter, Mrs. Bedina Nesbit, and three sons, Benjamin Jr., Harry and Peter.

Funeral services were held Wednesday afternoon at the James Crowe Company chapel, with interment following in Alta Mesa Memorial Park.

Rev. Edwin Castledine officiated at the services in conjunction with the Odd Fellows of which organization Mr. Rodgers was a member, belonging to Bayview Lodge No. 109.

ANNEXATION TO MENLO FIRE DISTRICT SOUGHT

Fifteen property owners of the territory between Menlo Park and Woodside fire districts Wednesday petitioned the county supervisors for its annexation to the Menlo Park district for fire protection purposes.

They say the territory is assessed at $155,700, and begins at Stockbride avenue and Alameda de las Pulgas, running adjacent to the Menlo Park district to Yedra avenue.

Commissioners of the Menlo Park district join with the property owners in requesting the annexation.

Mr. and Mrs. David Ingram spent Thursday in San Francisco.

P. A. Ministers' Club Honors Dr. Gardiner

The Palo Alto Ministers' Club was beautifully entertained at the Menlo Country Club at a luncheon by Dr. Charles Gardiner, chaplain of Stanford University, on Wednesday, the 27th instant. This was Dr. Gardiner's birthday and a banner day indeed, he made it for the fortunate clergymen present.

After a splendid luncheon the Club sat in business and social session in the Golf Club parlors.

Tribute to Dr. Gardiner and honored service and fellows was paid by the clergy club president, Paul Offenheiser of the Palo Alto Baptist church, and his deeply appreciative words were echoed by all present.

The club was highly honored by Dr. Gardiner who, in response to and by request gave a sketch of his coming to America and his experiences here until his entry into the ministry and his subsequent forty-three years of service in Palo Alto and at Stanford. It was indeed a most enjoyable occasion.

Rev. W. L. Staub of Menlo Park Presbyterian Church and and Rev. Ralph Smith, of Trinity Episcopal Church in this city were present.

PRESBYTERIAN CHURCH NOTICES FOR SUNDAY

Sunday school at 9:45, John Heltzel Sunerintendent.

Morning Worship at 11 a. m. The pastor, W. L. Staub, will use as his subject "The Earth is the Lord's and the Fullness Thereof." The choir will sing, "I will Sing Unto the Lord," by Lorenz.

School of Missions at 6:30.

At 7:30 Miss Flora Hubbard, who works with Miss Donaldina Cameron with the Chinese will speak on the work of the Presbyterian Board among the Chinese.

A Chinese choir of young people dressed in native costume will sing at this service, as will Miss Maud Dunn who has been soloist in the State and County Conventions of the Christian Endeavor.

The public is cordially invited to attend the services at the Presbyterian Church here.

SEQUOIA GIRLS JINX WILL TAKE PLACE MARCH 9th

With the library, main hall, and two study halls of Sequoia Union high school for the setting, the annual jinx held by the Sequoia Girls' society will take place March ninth under the supervision of Mrs. A. S. Kalenborn, dean of girls, and Janis Hildebrant, general chairman of the affair.

The theme being a circus, each club will present a stunt and plan and manage a booth. Prizes will be awarded for the most original costume, the cleverest stunt, and the best decorated booth.

The jinx will open with a grand march, after which stunts will be given. The remainder of the evening will be spent in dancing and general fun.

COL. ALDEN G. ALLEY TO SPEAK IN REDWOOD CITY

On Wednesday evening, March 6, Alden G. Alley, colonel of infantry in the army during the war and a student of international affairs, who has attended a number of sessions of the League of Nations will speak on Fascism and Naziism at the Congregational Church in Redwood City at 7 o'clock.

The Colonel has been sent out by the National Council for Prevention of War in Washington, the lecture will be free to the public.

The regular monthly dinner of the church will be held at 6:30 p. m.

Mr. and Mrs. Walter Gamboni of Camino Por Los Arboles, Atherton, left Tuesday for Olema, Marin county, upon receipt of the news of the death of Walter Gamboni's brother, Joseph Gamoboni, Jr.

Mr. and Mrs. E. P. Clough were in Menlo Park on Monday, looking after their real estate interests.

"FORBIDDEN ZONE" PASS NEEDED

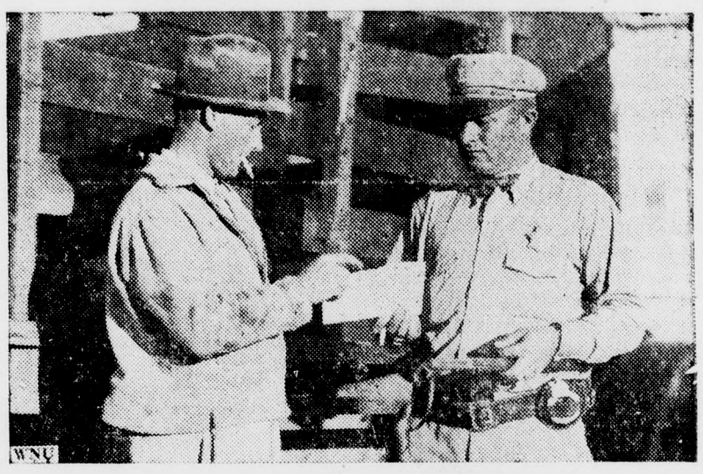

Photo shows Roy Wells, State highway patrolman (right) as he examines pass of worker whose truck is in the background, before he can enter the "no-man's land" at El Centro. The term is used to designate the lettuce shed district since officers closed all entrances since the lettuce strike tragedy when two srikers were killed. Every street entrance in the shed district has been closed to all except those who can show passes or prove actual business reasons for them to enter the forbidden zone.

State Building-Exhibit At San Diego Fair

San Francisco, Feb. 27.—Officials of the California Pacific International Exposition at the local headquarters in the Palace Hotel were jubilant over the receipt of a telegram from United States Senator William G. McAdoo that the exposition's bill asking for an appropriation for $350,000 for Federal participation in the exposition had passed the Senate.

This follows the announcement earlier this week of the appropriation of $90,000 of SERA funds for the construction of a California State Building a tthe exposition opening in San Diego May 29th.

"With a wide representation of the nations of the world at the California Pacific International Exposition, it is fitting that the Federal government and California itself should be represented," said a statement issued at the local headquarters.

The California Building will provide exhibit space free of charge to the 57 counties. According to an announcement of Governor Merriam, who officially broke ground for the building this week, the state is to have an impressive exhibit in the same building.

STATE ELECTION OF SCHOOL TRUSTEES

Trustees in every elementary, high and junior college district in California must be elected Friday, March 29, 1935. The term of office of those elected begins on May 1 following the election and continues for three years.

Anyone who desires to become a candidate must file a written notice of candidacy with the clerk of the board of trustees of the district in which he or she resides at least ten days before the election.

The following are those whose terms expire this year in this vicinity:

Menlo Park, John T. Aabel.
Las Lomitas, Dorothy Canning.
Ravenswood, Verna Brown.
Sequoia Union High School, Walter Kellogg.

While no candidates have so far announced themselves, it is rumored that there will be two or three out for the place on the Menlo Park School board.

L. E. HARRIS CELEBRATES BIRTHDAY WEDNESDAY

L. E. Harris, of the Menlo Park Recorder, celebrated his fifty-fifth birthday Wednesday. He was the dinner guest of his daughters and sons-in-law at Willow Glen in the evening at which time a delightful dinner was served and many useful gifts were received by father.

Those present were Mr. and Mrs. Oscar A. Bradley, Mr. and Mrs. George W. Thompson, Jerry Bradley and Mr. and Mrs. L. E. Harris.

Parker M. Robinson has leased the McNaught estate in Atherton and with his family will take possession within a few days.

Street Light Rates Reduced By P.G.&E.

Substantial reduction in street lighting rates was announced today by the Pacific Gas and Electric Company.

Effective with the March bills for this service to municipalities, rates will be reduced approximately ten per cent below present charges.

The reduction applies to all street lighting facilities owned by the company in incorporated cities and towns in P. G. and E. territory, which covers some 37 counties of central and northern California.

Savings realized by municipal governments from the new lower rates will amount to considerable sums annually. In San Francisco where the reduction recently was made public by the city authorities, the saving to the city will total approximately $108,000 per year.

One effect of the reduced cost of street lighting, it is expected, will be increased illumination of streets which will decrease traffic hazards, prevent accidents and in general increase public safety.

Governor Plans Crime Control

In a recent meeting with police executives of the state, Governor Frank Merriam outlined a six-point program in which the keynote was the concentration of the law-enforcing bodies of the eleven western states.

The governor declared that he was anxious to work out a program to present to the governors of the western states when they convene with him at Sacramento March 18-19 for a crime-eradication confab.

For consideration at the meeting the governor presented the following proposals:

Centralized law-enforcing department.

State-established minimum standards for all peace officers in California.

Establishment of training schools for those seeking employment in police service.

Criminal pursuit and crime suppression contracts between states.

Adoption by states of uniform codes of criminal procedure.

Cooperation between federal and state government in all matters involving national or interstate criminal activities.

THREE MONTHS IN JAIL FOR MANSLAUGHTER

Convicted of manslaughter in connection with a fatal accident at Middlefield road crossing north of here, Jesse Mathis, 41, veterans' hospital attendant, must serve the next three months in the county jail as condition of three years' probation granted Tuesday by Superior Judge Aylett R. Cotton. Mathis has already spent 58 days in jail. Clemency was recommended by Probation Officer Francis J. Robinson.

THE RIGHT NAME BUT THE WRONG MAN

It is not an unusual occurrance these days for some bright young man to walk into the Menlo Park Hardware Store with fire in his eye and his fists all doubled up looking for trouble.

This individual most always greets City Treasurer J. William Ryan with a scowl and a begrudging "Good Morning Judge, what's the damages."

City Treasurer J. W. Ryan is very desirous of informing the public that he sells hardware and does NOT pass out fines for this or that. He is not in any way connected with the said fines, other than to receive them from His Honor, City Judge Edward J. Ryan.

It is unfortunate that two of Menlo Park great men should bear the same name, but then one has to pay the price if he would be great.

Please do not in the future blame City Treasurer J. Wm. Ryan and his hardware store for receiving the fines assessed to you by City Judge Edward J. Ryan, as his law books provide. If you are guilty pay the fine like a man, but don't blame either Mr. Ryan, they both have the law behind them and both do their duty.

Property Owners Take Advantage Of FHA Loans

Owners of thousands of California homes are taking advantage of the Federal Housing Act to remodel, repair, and bring their homes up to date this spring.

According to the Pacific Coast Electrical Bureau, since the Housing Act makes loans for electrical wiring, and as a house can be wired with little disturbance, most of these homeowners are taking this opportunity to modernize their homes by new wire installation. The Bureau reports requests from all parts of the Pacific Coast for information regarding the requirements of a properly wired home.

They point out that while the needs for each home are individual, yet certain standard rules can be made to cover the average home. In planning for new wiring, each room should be studied, and provisions made for all possible requirements as new uses for electricity in the home are being developed constantly, and most homes add new electrical equipment from year to year.

Of major importance is an abundant supply of convenience outlets, so that lamps, vacuum cleaners, heaters, fans, and other needed appliances may be used at any desired point.

For fixtures more or less permanently located, such as the refrigerator, range, washing machine, radio, and electric clocks, outlets can be concealed in out of the way places, as they do not need to be easily accessible.

Provision should be made for abundant general illumination in each room, supplied by indirect lighting fixtures. Additional local light should be supplied by lamps in places where serious seeing tasks are carried on, such as reading, writing, and sewing. If light is used as decoration, such as wall brackets, the light sources should be well shaded.

For added safety in the home, good lighting should be provided in all hallways, closets, basements and porches. Some of the lights in each room should be controlled by a switch near the door, so that lights may be turned on upon entering a room. This does away with the danger of stumbling around in the dark to locate a light switch. Also, it is a convenience to have switch controls at each end of a large room or hallway so that lights may be turned on or off from either point.

In laying out a new system, it is advisable to have outlets placed around the house out of doors in order that electricity may be available for lighting walks and driveway, for illumination of pools and fountains, and for outdoor tree decoration at Christmas. For this outdoor service, water-proof outlets should be used.

The Bureau urges that all wiring should be done by a qualified electrician, as inferior materials, too small wire, or careless workmanship may result in an unsatisfactory and inadequate installation. Many localities require that electrical contractors be licensed, and all wiring must be inspected and approved by the proper authorities.

County Emergency Relief Statement

The following communication has been received from Capt. L. G. McAloney, Director of County Emergency Relief, and is self explanatory.

"Due to the fact that the total funds available to the State of California for Unemployment relief are limited, it is necessary to effect an immediate reduction in expenditures. As a result, San Mateo County Emergency Relief Administration received a maximum budget allowable to families on Direct relief which is approximately 15 per cent less than we have been allowing. However, for those on Work relief, these maximum Direct relief budgets submitted by the SERA Office may be increased by 15 per cent.

"We are asked by the State Office to bring about this proposed change making it effective March 1, and we are urged to give this change preference over all other matters at this time. This, we believe, is a temporary measure because of not receiving our full quota of Federal funds.

The budget San Mateo County has been following is the Okey-Huntington budget allowance, which, I understand, is more adequate than the budgets allowed in other parts of the State.

"Our Case Supervisors and Visitors have been carefully instructed as to the necessity for the reduced budget and asked to contact each one of their clients and explain carefully to them our reason for this reduction.

"These instructions came from the SERA Office, and we are carrying out orders as directed. This office is sorry this measure is necessary, but we hope the persons on our roll will accept this temporary reduction as only an emergency measure, and that they will cooperate with us until some instructive legislation is passed."

ATHERTON AUXILIARY PLANS FOR EASTER EGG HUNT

Once again there will be an Easter Egg Hunt for peninsula children at the Covington Pringle place in Woodside. Plans for it are already being made by the Atherton unit of the Junior Auxiliary to the Stanford Convalescent Home of which Mrs. Willard H. Sheldon is president.

Mrs. Martin Mitau is chairman. Assisting her with arrangements for the event, which yearly attracts hundreds of children, are Mrs. Oliver Dibble, Mrs. Polk Dodson, and Mrs. Samuel Wright.

The date is Sunday morning, April 21, and the place, the Pringle meadows. Tickets will be 35 35 cents and all children are invited.

FEDERAL INCOME TAXPAYERS

For the convenience of tohse who are required by law to file federal income tax returns, Deputy Collector J. F. Shandley, of the Internal Revenue Service, will be at Bank of America, Redwood City, on March 13, 14 and 15 to assist taxpayers in preparing their returns. No charge will be made for this service. The matter of filing your income tax return should be given immediate attention in order to avoid penalty and interest.

Respectfully
JOHN V. LEWIS,
Collector.

Report Shows Increase In Calif. Business Circles

California, during the first month of 1935, was in considerably better shape financially than it was a year ago, according to the monthly report of the Business Outlook.

Department store trade in this state showed a 10 per cent increase in dollar-volume over January 1934. The national increase for the same period was 4 per cent. Wholesale trade for January 1935 over the same month in the year before showed 8 per cent gains in auto supplies, 12 per cent in drygoods, 24 per cent in electrical supplies, 13 per cent in furniture, 18 per cent in groceries, 20 per cent in hardware and 23 per cent in paper and stationary.

New California life insurance sales totaled $363,029,000, or 9 per cent over 1934. This figure is greater than the combined total sales of the ten other western states.

Newspaper advertising during January in the state's four largest cities was 7 per cent larger than that of January, 1934. About the same increase was registered in eight other major far-western cities.

In contrast with the below-average rainfall of the last few years and the serious draught conditions in the West and in certain localities of California, rainfall for this season continues moderately ahead of average in the northern part of the state, and substantially ahead in the southern sections. Snowfall has nearly doubled that of last year, although it is still less than average.

Substantial increase of the navel orange crop for California is expected this season. Members of that industry estimated a crop of 16,900,000 boxes. Last year's crop totalled 12,000,000 boxes. The lemon crop is also expected to exceed last year's. Florida estimates a smaller orange crop than in 1934 due to adverse weather conditions there recently. In anticipation of the increased citrus supply, lemon and orange prices have receded slightly.

January employment in California factories was 7.8 per cent greater than in 1934. Because of the 9.8 per cent increase in average weekly earnings, the total payroll showed a jump of 18.3 per cent. Employment dropped, however, 1.5 per cent over December, although weekly earnings advanced slightly.

Due chiefly to the increased output and value of gold, California's mineral production for 1934, including petroleum and natural gas, totaled $254,918,000 and increased 23.5 over 1933. California's $24,500,000 contribution to the nation's gold supply last year represented 23 per cent of the national total. As compared witih 1933, it increased 12 per cent in quantity and 73 per cent in total value.

California's lumber production has been on the increase for two consecutive years, the 1934 output totaling 1, 014,500,000 board feet; this meant a 30 per cent increase over 1933 and a 49 per cent gain over 1932, which marked the lowest point in 25 years.

CITY COUNCIL TO HAVE MEN AT LIQUOR ZONE HEARING

Menlo Park will be represented by two members of the city family at the hearing to be held in Sacramento this month by the Board of Equalization in the mile-and-a-half liquor zone law. The city attorney, James T. O'Keefe Jr., will be one of the men to go to the capitol and the other has not been named as yet.

Councilman Irving Dunn reported that his department was at this time carrying out a program of tree trimming, where shade trees were obscuring street lights. He also reported the completion of repairs to the sidewalk near the Corpus Christi monastery on Oak Grove avenue and the council approved a $25 claim for the cost of the job.

City Health Officer, Dr. R. J. Gerlough reported for the month of February that the department performed 39 vaccinations and issued 50 toxoids for diphtheria. He had inspected eight grocery stores, five markets and sixteen restaurants and bakeries.

Chief of Police Henry Carroll asked for an allotment to purchase ammunition for the police department, for target practice and was given $5 for this purpose.

Development of mining properties, marginal farm land, forests and watersheds by convict labor, has been adovcated by Julian Alco, acting San Quentin Prison warden. This would eliminate over-crowding in prisons, rehabilitate the prisoners and save the state money. Each development would be self-supporting.

Twenty-five hundred baby trout, the first hatch of the season, are already old enough to enjoy a meal of ground liver. They were born at Threerivers, Tulare County. Other hatchings are planned for the spring and early summer. Over 1,000,000 fry are to be turned out this season, promising sport for fishermen.

No longer do American youths, who save their pennies for a correspondence course in cartooning, aspire to become newspaper strip artists or India ink commentators on current affairs. Their ambitions now are to get in with one of the cartoon comedy outfits where salaries are several times that paid by newspapers.

Salaries for animators in pictures are way up. Walt Disney has animators on his staff who draw up to $300 weekly. Paul Terry and others have artists who receive up to $250 weekly. Lowest salary for an animator is around $75 weekly. That's about average for a newspaper drawing board athlete. Top salary goes to the animator, who draws the master figures, perhaps one out of every six figures. The person who fills in the middle figures is lower in salary and lowest paid man is the chap who draws figures in between the other two, necessitating little change in action or position of the subject being drawn Though it would seem that draftsmanship is the most essential requirement in making cartoons, it is not. Most important is the ability to get feeling into the drawing. If the feeling is there and the drawing poor, a good artist can take the rough spots out. No matter how good the artist, if he's short on feeling, acting ability with a pencil, he is less valuable to his employers. Those who feel that they have the knack to become animators usually start as tracers, tracing the original drawing onto isinglass at $20 a week. From there they work up, or out, as the degree of ability might be. Background artists are in a different category. They have nothing to do with animation, draw only the backgrounds. Their salaries run around $150 weekly. They are usually better artists than the animators but lack imagination. Usually women are too artistic to become animators. However, they are often keen producers of backgrounds. In Hollywood about 300 artists work on animated cartoons. About a third of them have come from newspapers. Rest are graduates from correspondence schools, a few from art schools. All studios making cartoon subjects maintain their own school to wise up the youngsters on what is necessary for animation.

Mae West may interrupt her picture-making for Paramount after her next for an indeterminate period to go to England for stage appearances, possibly in a musical revue. Par idea in New York is that personals abroad would strengthen her further on her return. Among other things pointed to is the fact that numerous Americans have been received in England and on the Continent with unusually warm welcomes, notable among these being Sophie Tucker, who originally went over for a brief series of stage and night club dates but stuck a long spell. When it had Maurice Chevalier and he was on top as a par star, the company favored the idea of concert engagements in this country and personals as well on the other side.

* * * *

According to Mervyn LeRoy, Willie Fung, Chinese actor playing the part of 'Kin' in 'Oil for the Lamps of China,' is the most fastidious actor of the screen. Says Fung has two valets on the set, one to hold his teeth for him when not necessary to wear in scenes, and the other to keep wardrobe in order.

* * * *

Film rights to king Features Syndicate comic strip, 'Little Anne Rooney,' has been bought by Fox. Company figures story based on the cartoon as a starrer for Shirlie Temple.

* * * *

Colored extras have earned more than $450,000 in the last seven years from major companies. Report shows that 5,024 colored atmosphere people played in pictures in 1934 and received $36,-142 in salary. Top salary of $15 a day, calling for the wearing of dress clothes, was earned by 85 players and that the average day's pay of the colored extras during the year was $7.19. About 46% of those employed were paid $5 a day.

NOTICE OF ELECTION for Elementary School Trustee

(School Code Section 2.873)

NOTICE is hereby given to the Electors of Menlo Park Elementary School District of San Mateo County, California, that the Annual Election for School Trustee for Menlo Park Elementary School District, will be held at the Central Schoolhouse in said district on the last Friday in MARCH, viz, MARCH 29, 1935.

It will be necessary to elect one trustee for three years.

The polls will be open between the hours of 2:00 o'clock P. M., and 6:00 o'clock P. M.

The officers appointed to conduct the election are:

Mrs. M. Gale, Inspector.
Mrs. Beach, Judge
Mrs. Thomas, Judge.

Signed:
F. W. JOHNSON,
JOHN T. AABEL,
JOHN W. MOREY, Clerk.
School Trustees.

Dated Feby. 27, 1935.

Menlo Park Elementary School

NOTE.—Notices must be posted in three public places in the district, not less than 30 days before the election, and, if there is a newspaper of general circulation in the district, notices must be published therein once a week for three weeks before the election. (School Code sec. 2.873)

For other laws governing the election of School Trustees, see School Code sections 2.870 to 2.971, inclusive.

All qualified electors of the county who were resigtered in the precinct in which the election for school trustee is held at least 40 days before the election may vote thereat. (School Code section 2.878).

V. KERSEY,
Superintendent of Public Instruction.

January Gasoline Tax Shows Big Gain

Sacramento, February 28—California's gasoline tax for January has reached a total of $3,002,383-.93, or $402,493.74 more than the tax for the first month of 1934. This gain of 1.5 per cent was announced here today by the State Board of Equalization when assessment of last month's tax of three cents per gallon on motor vehicle fuel was completed.

Contrasting the gain registered at the beginning of this year with a loss of 3.8 per cent shown by comparison of the January, 1934 tax with that for the first month of 1935, the Equalization Board predicts that gasoline tax collections for 1935 may be expected to show a definite improvement.

Analyzing the statistics, the Board said:

"Although there was some fluctuation in fuel tax returns for the months of 1934, that year as a whole marked a gain over 1933 of a little less than one per cent. December 1934 collections were 1.5 per cent more than those for the last month of the previous year."

"Now that the first month of this year has shown a comparable increase, we are encouraged to believe that 1935 gasoline taxes may exceed $40,000,000 as contrasted with the yield of $39,625,055.32 for 1934."

Administrative expense of the Board is extremly low, requiring less than two-tenths of one per cent of the tax paid. Refunds for non-highway uses, however, absorb approximately ten per cent of collections and the Board cautions that even with a total yield of $40,000,000 for 1935, the net gasoline tax proceeds for road work may not be expected to exceed $36,000,000 during the year.

NEW TELEPHONE DIRECTORY GOES TO PRESS MARCH SOON

The new Santa Clara County telephone directory will close for printing within a few days, according to A. G. Ring, manager of the Pacific Telephone and Telegraph Company.

Ring urged that new listings and changes in present listings, to appear in the forthcoming directory, be arranged for at once by calling the Company's business office.

Delivery of the new telephone book is scheduled to begin during the week of April 1, 1935.

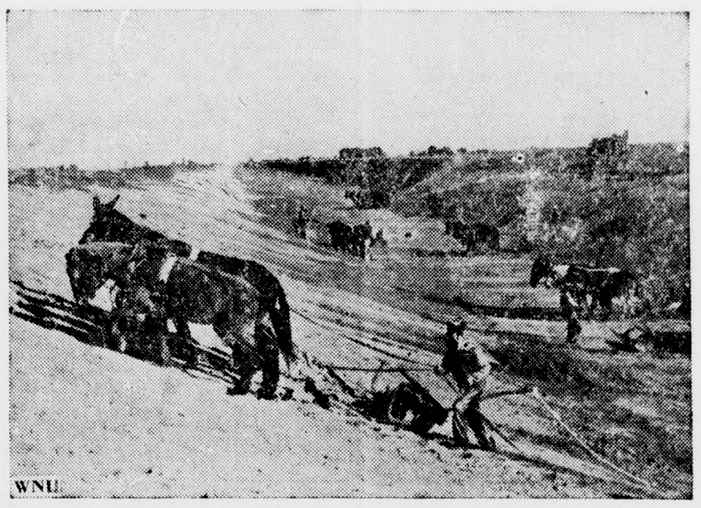
As listings for Menlo Park and vicinity appear in the Santa Clara County directory it is urged that all local people attend to the matter of their phone listings at once, now!

AMADOR MINING CREWS ARE GUARDED BY 'CITIZEN ARMY'

JACKSON — (WNU) — Two hundred deputized citizens, armed with shotguns and rifles, conducted non-union crews to and from work in the Argonaut and Little Amador mines during recent troubles and threatened violence from picketers. Mine officials blame a handful of radicals for keeping adverse feeling aroused among picketers. "If a secret ballot had been taken two months ago, 75 per cent of the men would have voted to return to work," declared one official.

The card party given by the local American Legion and its Auxiliary in the auditorium of the grammar school on Tuesday night was well attended and a nice sum realized. Bingo was a freature and was well patronized.

FARMERS WORK ON CANAL



Farmers of Imperial Valley working on the force account section of the $27,000,000 All-American Canal near Calexico, where 1000 head of mules and horses with fresno scrapers are being employed to excavate the canal which means assured water supply and cheap power for the Imperial and Coachella valleys.

NOTICE OF TRUSTEE'S SALE

NOTICE IS HEREBY GIVEN that default having been made in the payment of both the principal and interest of the indebtedness secured by a certain deed of trust executed by W. E. Banker and Nina L. Banker, his wife, and J. W. Miller and Rubie E. Miller, his wife, as trustors, to American Trust Company, a corporation, as trustee, and Q. D. Griffin, as beneficiary, dated August 24, 1931, and recorded August 27, 1931, in the office of the County Recorder of the County of San Mateo, State of California, in Volume 532 of Official Records, at page 378;

And said Q. D. Griffin having recorded in the office of the County Recorder of said County of San Mateo, a notice of such breach and of his election to cause to be sold the property hereinafter described to satisfy said obligations; and three months having elapsed since the recording of said notice;

And Sherman F. Schomberg having been substituted as such trustee in the place and stead of said American Trust Company by document of record in said County Recorder's office;

And application in writing having been made to the undersigned as such trustee by said Q. D. Griffin the owner and holder of said indebtedness and said deed of trust securing the same, that the undersigned trustee sell the premises hereinafter described, as by law and said deed of trust provided; and said indebtedness still remaining unpaid;

Now therefore, the undersigned trustee will, on the 22nd day of March, 1935, at the hour of 10 o'clock a. m., of that day, at the front door of the County Court House of said County of San Mateo, Redwood City, California, pursuant to law and the provisions of said deed of trust, sell at public auction to the highest bidder for cash in lawful money of the United States, without warranty, the following real property situate in the town of Menlo Park, County of San Mateo, State of California, together with the appurtenances thereto and the rents, issues and profits thereof, towit:

Commencing at a point which point is arrived at as follows: Beginning at the point of intersection of the northerly line of Laurel Street with the dividing line between lots 210 and 211, as said lots appear on the map entitled "Plat of the lands of the Menlo Park Villa Association, Southern Portion of Pulgas Rancho San Mateo County" filed for record September 14, 1863, in Liber "C" of Maps, at page 6, records of San Mateo County, said point being distant one foot measured at a right angle southeasterly from the southeasterly line of Cherry Avenue, as said avenue appears on the map entitled "Map of Menlo Grove a Resubdivision of lot 210 and 213 of the Briceland Tract at Menlo Park," filed for record March 18, 1907, in Liber "E" of Maps at page 12 and a copy entered in Liber 4 of Maps, at page 60, records of San Mateo County; thence northeasterly on and along said dividing line between lots 210 and 211 and continuing northeasterly along the dividing line between lots 212 and 213 of said Menlo Park Villa Association Map, said dividing line being at a uniform distance of one foot, measured at a right angle southeasterly from said line of Cherry Avenue 328.40 feet to the true point of commencement; thence continuing northeasterly on and along the dividing line between lots 212 and 213 aforesaid, 150 feet to a concrete monument at the corner common to lots 222, 223, 213 and 212; thence at a right angle southeasterly on and along the line dividing lots 223 and 212, 50 feet to a stake; thence at right angles southwesterly 153.47 feet on a line parallel with the line dividing lots 213 and 212 to a stake; thence in a direct line northwesterly 50.12 feet to a stake and the point of commencement.

Dated: February 25, 1935.

SHERMAN F. SCHOMBERG,
Trustee as aforesaid.

K. R. McDOUGALL, Attorney for Trustee, Palo Alto, California.

Co. Charter Repeal Urged By Asa Hull

A letter written by Asa Hull, well known resident of this county, has reached the office of the Menlo Park Recorder, and as both repeal and amendments to the county charter are being talked of at this time it has been considered wise to publish the editor in full:

To the Editor:

When the framers of San Mateo county's charter campaigned for its adoption they stressed to the voters that it would take the county government out of politics, that it would save the taxpayers money and that it would make for a more efficient administration of the people's affairs.

They said there would be five constables until changed conditions required more—politics says the 7 shall be continued; they set up an elaborate health department to take care of the growth and future needs of the community—politics said that every job in the plan must be filled at once so we have an expensive department far in advance of our requirements; they intended that a building inspector should be paid from fees until income justified a salary—politics decreed that the department should be set up at once with full salary, office, assistant and automobile regardless of the income which it would produce; they fondly hoped that all projects for the expenditure of money would be analyzed by a competent administrator and presented to the Board of Supervisors with recommendations based on the need, cost and ultimate advantage to the taxpayer—but we all know that this procedure has not been followed.

This is the fault of the charter because it does not control the situation. Officials created by it have no responsibility under general laws as other officials have, so they are under no control at all.

Good government depends on men more than machinery. Good men will provide good government using any instrument at hand. Selfish men will use the best instrument of government for their own purposes. Recent events in San Mateo county have provided as fine an example of the spoils system in operation as has ever been seen anywhere. The framers of the charter had hoped to make a weak and incompetent governing body less of a menace to the taxpayers so on this plea the voters supported it. But the ousting of competent, trained, experienced officials and employees in favor of political favorites; the creation of jobs to pay personal and political debts gives ample proof that the charter does not justify the faith of its promoters.

There is, however, one method of remedying this intolerable situation. That is to sign the petition which will be circulated at an early date to repeal the charter and to return San Mateo county to the form of government under which it operated for many years, one that proved adequate for more than a century and a half on this continent.

ASA HULL.

As soon as figures are made available with regard to the cost of operating the county government under the charter the Recorder will print them for the edification of the voters in this section.

CHRISTIAN SCIENCE SERVICES

First Church of Christ Scientist, Bryant street and Forest avenue, Palo Alto; Sunday Services at 11 a. m., and 8 p. m.

First Church of Christ, Scientist, University and Orange avenues, Los Altos Sunday services at 11 a. m. Sunday School, Palo Alto and Los Altos churches at 9:30 a. m. Both churches hold Wednesday evening meetings at 8 o'clock.

"As ye have therefore received Christ Jesus the Lord, so walk ye in him: For in him dwelleth all the fullness of the Godhead bodily." These words from Colossians comprise the Golden Text to be used Sunday, March 3, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ Scientist, in Boston, Mass.

The subject of the Lesson-Sermon will be "Christ Jesus." Included among the Scriptural selections will be: "Then cried Jesus in the temple as he taught, saying, Ye both know me, and ye know whence I am: and I am not come of myself, but he that sent me is true, whom ye know not. But I know him: for I am from him, and he hath sent me" (John 7: 28, 29).

The following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "Jesus presented the ideal of God better than could any man whose origin was less spiritual. By his obedience to God, he demonstrated more spiritually than all others the Principle of being. . . . We must go and do likewise, else we are not improving the great blessings which our Master worked and suffered to bestow upon us" (p. 25).

Christian Science radio programs sanctioned by the Christian Science Board of Directors of The Mother Church, The First Church of Christ Scientist, in Boston, Mass., and under the direction of the Committee on Publication for Northern California are on the air: Mornings: Station KYA, 1230 kilocycles, weekdays at 8:00 and Sundays at 8:15.

TRINITY CHURCH

Oak Grove Ave., Menlo Park.

Early Celebration, 8:00 a. m.

Morning Prayer and Sermon, 10:30 a. m.

The Church School in the Parish House, also 10:30 a. m.

All are welcome to these services.

Good Eyes need Good Light
Impaired Sight demands it

GOOD EYES are a very precious possession. Of all the senses—seeing is the very last thing anyone would wish to damage.

Once damaged, eyes can never be repaired or replaced. We can only help them by wearing glasses prescribed by an eye specialist. But even then, the best of glasses cannot completely restore the full healthy vision of eyes damaged by abuse.

Most good eyesight becomes poor eyesight because good eyes are abused by straining to see in bad light.

It is so easy today to have good lighting. Electricity is plentiful and low in cost. And modern lamps are scientifically designed to give proper diffusion of light without harmful glare.

Below is pictured a lamp of scientifically correct design. Note its modern features. Compare it with the lamps you are using in your home. You should have at least one of these lamps in your living room and on the children's study table.

FRUITS IN CANS

PART of the joy of eating fruit comes from the lovely surroundings in which you find it. What a good time Adam and Eve must have had in the Garden of Eden eating the first apple! Even after they were evicted by the Angel with the Flaming Sword it must have been an exceedingly agreeable memory! At any rate, their descendants have gone right on eating apples.

We're all out of the Garden of Eden now. We don't even know where it is. And unfortunately, most of us can't pluck and eat our fruits in either gardens or orchards. Someone else does the plucking in the sunshine and sweet surroundings, and the best he can do for us is to see that the fruit reaches us in our homes with as much of its original taste and aroma as possible.

A Swell Job

The commercial canning industry does a swell job for us in this respect. Who of us hasn't mentally glimpsed a branch of apple or peach blossoms when opening a superfine can of one of those fruits? Who hasn't sensed the warmth and romance of far-off Hawaii when the lid comes off a can of pineapple? Who hasn't . . . But all this is apt to make us homesick for leaves and sunshine and outdoors. Let's eat some of the fruit and see how it tastes. But, first of all, let's consider what fruits are available in cans.

The list is long. There are apple—apple butter, sauce, sliced hole—apricot halves, black-blueberries, and cherries—black, red and white. There are cocoanuts, cranberry jelly, figs from the Orient and Texas, mixed fruits for cocktails and salads, and also gooseberries and grapes. Then there are grapefruit, loganberries, peaches—in halves and sliced—pear halves, pineapple—crushed, sliced and in tidbits — plums, prunes—dry and in syrup—raspberries black and raspberries red. Finally there are rhubarb, strained fruits, strawberries and fruits put up in wine for salad. If we got them all, we would almost have a regular Garden of Eden from cans.

Take Your Choice

At any rate, we can choose the ones we like best of all these at any time in almost any place. Why not break with habit and try a few new ones that it hasn't occurred to you to eat before? Take cherries, for instance, which come to mind because Washington's Birthday occurs in February. Here's an excellent cherry recipe for cream tarts which will make a sure-fire hit with your family. The ingredients are:

2 eggs
1/2 cup sugar
1/3 cup flour
A few grains salt
2 cups milk
A few drops vanilla
1 No. 2 can red pitted cherries
2/3 cup sugar

Beat the eggs slightly, then add the sugar, flour and salt mixed together. Add the scalded milk slowly, and cook in a double boiler, stirring constantly, until thick and smooth. Add the vanilla, and cool. Add the two-thirds cup sugar to the cherry syrup from the can, bring to boiling, add the cherries, and cook gently until the syrup is rich and thick. Cool. Fill tart shells half full of the cream mixture, and cover thickly with the glazed cherries. This makes eight tarts.

Try These Desserts

Or combine two of these fruits in a dessert which is delicious such as the following Pineapple-Rhubarb Ice. The ingredients are

1 package lemon gelatin
1 cup boiling water
2 cups water
1 1/2 cups sugar
1 cup crushed pineapple
4 cups rhubarb
1 cup water

Dissolve the gelatin in the boiling water. Boil the two cups of water and sugar for two or three minutes, and add to the gelatin. Cool and add the pineapple. The rhubarb should be cut in small pieces and then cooked till very soft in the one cup of water. Press through a sieve, and add to the first mixture. (There should be two cups of rhubarb juice.) Freeze in refrigerator trays, stirring often at first, then occasionally. Serves twelve.

A simpler dessert for children is Peach Junket. Its ingredients are:

1 package lemon junket
2 cups milk
One 1-pound can sliced peaches

Heat the milk to lukewarm and dissolve it in the junket. Do not stir after dissolving. Drain the peaches well and lay half of them in the bottoms of individual glass cups. Pour the junket over, and set in refrigerator to chill and set, being careful not to agitate it, or it will whey. When ready to serve, lay the remaining peaches on top. Serves six.

CALIFORNIA News of the Week

(By WNU Service)

Tornado velocity winds ripped through the San Gabriel foothill district of southern California recently, doing considerable damage, including tearing off a large section of the Santa Anita racetrack grandstand roof. The wind reached a velocity of 60 miles an hour, caving in many windows.

In the second attempt to obtain a supreme court hearing of his case, Thomas J. Mooney again failed. Recently the court refused the review, asserting that he had not exhausted all his chances in the state courts. The second petition, just refused, asked through what channels he might seek for review of his case in the courts of this state.

Although further development of Hamilton Field, Marin County, is said to be "urgent and immediate," PWA funds for construction are exhausted. This field was recently designated by the War Department as headquarters of the First Wing of the Army Air Service. Three and a half million has been spent. Another half million will be needed to finish the work.

U. S. Attorney Hall has asked the U. S. Circuit Court of Appeals for a writ to continue the injunction preventing the Wilshire Oil Company from producing oil in excess of prorate allotments. The court took the issue under advisement and set March 29 as the date to hear the appeal against the injunction which had been previously filed by the oil company.

Legal action to test the State Board of Equalization's power to close without a hearing cafes and establishments for alleged liquor law violations is probable, following appeal to the courts by two establishments ordered closed in San Francisco recently. The cafes were granted an injunction preventing the board from closing them until a hearing had been held.

Aimee Semple McPherson, who recently left her Los Angeles four square gospel for a world trip, has failed in an attempt to enlarge the four square idea to a national scale. She and promoters sought to raise $100,000 to rid the country of Communism and other subversive elements. She and the promoters failed to raise enough money to make it worth her while to carry on the campaign.

E. Raymond Cato, who served more than 20 years in the Los Angeles police department as captain of detectives, and then took leave of absence four years ago to become chief of the California Highway Patrol, has been granted a police retirement pension by the Los Angeles Pension Board. His pension will be $148 a month, but he sai' he plans to return it to the city as long as he holds his patrol chief job, paying him $7000 a year.

A sharp decline in the number of crimes reported to the state bureau of identification for January 1935 over January 1934 is shown in the first month report of the bureau. Exclusive of murder and manslaughter, last month's figures were 2,803 crimes. A year ago they were 3,476. Burglary led the list with 1,786 cases. Fake checks and forgery totaled 233; pickpockets, 48; purse-snatching, 42; robbery, 283; miscellaneous, 404.

Closed last October along with three other Amador County mines because of strikes, the Argonaut Mine has recommenced operations. Another of the four, the Central Eureka, opened recently with a skeleton crew of 40 men. Yet another, the Amador, is negotiating for a settlement. Opening of the Argonaut brought mingled relief and fear to the county where business has been practically at a standstill since the 500 miners struck.

A building of Class A design is being constructed in Hollywood which will house a new commercial motion picture film laboratory within two months. When completed, the present plant will be able to develop 150,000 feet of positive and 75,000 feet of negative film a day. The corporation owning the laboratory, International Cinema, Inc., will also exploit the new Regan-Ray process, a process developed by the organization's president which will make it possible for American actors to appear to be speaking in a foreign tongue when their pictures are being shown in foreign countries and the talking parts are translated into the language of that country.

Four and a third million dollars of the $38,000,000 Navy public works allotment will be spent for improvements at the Mare Island Navy base in San Francisco bay. The same bill provides expenditures totaling $2,624,000 for San Diego's air base.

Sixty-four auto deaths in Los Angeles County for one month and eleven days! To combat this death record, officers issued 1850 citations in one week-end, the greatest number ever issued in Los Angeles in the same period of time.

U. S. customs guards recently smashed a San Francisco-Los Angeles dope ring when they arrested four men and confiscated $15,000 worth of opium. Forty-four tins of opium were taken from the Dollar liner President Hoover as she docked at San Pedro. Two of the quartet arrested were members of the crew.

Many Berkeley women who have confined their driving to the back seat or who are inexperienced motorists have joined a class, given under the auspices of the Berkeley Traffic Safety Commission, where they will learn to become expert feminene motorists. After an eight-week session of attending lectures given by automotive experts, a drivers' competition will be held and prizes awarded.

Spring is here! Evidences of it may be found all over the state and particularly in the Kern County desert between Bakersfield and the Ridge Route. Here a carpet of wild flowers stretches across the wide valley, a carpet which glows with vast jagged patches of reds, blues and yellows. An average of 15,000 persons every week-end are trekking to see this sight.

The West's answer to the challenge of crime will be taken up at a Sacramento conference March 18-19. Governor Merriam has invited the governors of Oregon Washington,

WOMAN IN AUTOMOBILE HURT, MAN IS JAILED

Charles Jones, 52, Menlo Park rancher, was arrested and placed in the Burlingame city jail charged with reckless driving as the result of an automobile accident in which a woman was injured Tuesday night.

A car driven by Jones struck the rear of the parked machine of C. N. MacCain, 1412 Edgehill drive, Burlingame, on El Camino Real, near Carmalita avenue, according to police. Mrs. MacCain, who was sitting in the parked car, suffered a wrenched back and neck.

Jones' bail was set at $150.

EAST PALO ALTO GRANGE DANCES TOMORROW NIGHT

The second of a series of dances given by the East Palo Alto Grange will be held tomorrow (Saturday) night in the Auditorium of the Ravenswood school.

The committee in charge is Mrs. R. F. Barbour, chairman of the Home Economics Club, and B. N. Hill, Chairman of the Ways and Means Committee of the Grange. Dancing starts at 8:30, music by the Hill-Billies orchestra. Admission 25 cents. The public is inivted, to attend this old fashioned dance for both the young and old.

The first of this series of dances was held last Saturday, with over 250 in attendance.

Mrs. Daisy Taylor of Palo Alto spent Wednesday in this city as the guest of friends.
